

# SOLAR STREET LIGHTS

Powerful led lights - use less power for maximum light

Solar panels to harvest energy from the sun

Movement sensors with auto activation

## Dimensions

### 3m fixed light

- > Height: 3m fixed
- > Lighting area: 10m wide & 5m deep

### 5m extendable light

- > Height: 5m extendable
- > Lighting area: 15m wide & 10m deep
- > PIR sensor range: 10m

## Connections

- > Type: IP65
- > Lifespan: 50000 hours
- > Charging time: 6-7 hours
- > Discharging time: 12 hours+
- > Beam angle: 120\*60 degree
- > Luminous Efficiency: 110LM/W
- > CCT: 6500K

## Sustainability

- > Top mounted solar panels
- > ZERO local CO<sub>2</sub> emissions

## Features

- > Fully automatic operation
- > Powerful LED lights
- > Intelligent light detection system, which after 10 seconds will dim to 20%

TOP MOUNTED SOLAR PANELS

PLUG INTO GRID IF NEEDED

Auto smart

SELF CHARGING AUTOMATIC

ZERO CO<sub>2</sub> EMISSIONS NO LOCAL EMISSIONS

LED LIGHTS ACTIVATE WHEN MOTION DETECTED
